Offering a valuable range of industry-vetted programs in Data Science, Full Stack Development Programming and other trending technologies, we aim to provide premium education that nurtures the industry leaders of tomorrow.

500+ STUDENTS PLACED TILL NOW!

DONT JUST TAKE OUR WORD FOR IT...

HERE'S WHAT SOME OF OUR STUDENTS HAVE TO SAY!

MELINDA

PACKAGE
21 LPA

One of the best decisions I have ever made was joining the Full Stack Developer Program at UniKaksha. Although I had not heard much about UniKaksha, joining a course here in fact exceeded my expectations. They played a pivotal role in my learning journey, acting as constant guidance and upskilling partner. Thanks to the course, I got a job as a Product Developer with a whooping salary of 21 lakhs per annum!

RAJ PATOLE

PACKAGE
12 LPA

A typical software developer's day is not 100% code. The majority of the time is spent on analysis, design, and communication with other stakeholders, while the remaining 20% is spent on actual coding. My experience at UniKaksha went beyond textbook concepts in the areas of Project Management & Software Engineering. I learned how to apply these concepts in my daily life.

SUMIT YADAV

PACKAGE
10 LPA

In order to upskill myself in core tech topics like HLD and LLD, I joined UniKaksha's Full Stack program. Here the course topics are structured in such a way that people who have a good grasp of programming fundamentals will be able to improve their skills in more advanced topics, such as those commonly asked in tech interviews.

RADHIKA RANE**PACKAGE****14 LPA**

Getting to learn Web Development from people having worked at top companies that face a large scale, and getting to learn algorithms from people who are MAANG developers is an altogether different experience. In my opinion, a degree in engineering doesn't guarantee you a high-level job; however, having the right skills will and I am a testament to that.

ANIL KUMAR**PACKAGE****8.5 LPA**

As a result of taking the web development course, my skills have been greatly enhanced. I gained hands-on experience in RHCSA, RHCE, AWS, and AZ-303, and I passed all my certificates. Thanks to UniKaksha trainers who helped enhance my skills by providing me with high-quality training during the COVID-19 pandemic.

MANSI CHATURWEDI**PACKAGE****12 LPA**

In spite of my limited programming knowledge and lack of confidence, I joined the Full Stack Program under the guidance of my trainer. With my MERN Stack specialization and participation in their unique Code-Along Sessions, I am now employed with my dream company - Tata Consultancy Services. I am astonished and delighted by my transformation from a beginner to a developer. Thanks a lot, UniKaksha!

ANKUR PATHAK**PACKAGE****8.5 LPA**

After a career gap, the data science program at UniKaksha helped me shift career paths and land a new job at Tech Mahindra. You may find it challenging to resume your dream career if you have a gap in your resume. My experience has taught me that upskilling can help you catch up. I was helped by UniKaksha to get my career going again and to achieve my professional goals.

RAHUL SINGH**PACKAGE****9 LPA**

While I was enrolled in the Techfit program at UniKaksha, the best thing was to be paired with a mentor, who was on hand to answer questions about the course content and web development as a profession. My knowledge of web development now allows me to create innovative websites. Kudos to the trainers at UniKaksha for their unwavering support.
